

Textile Waste Audit Report

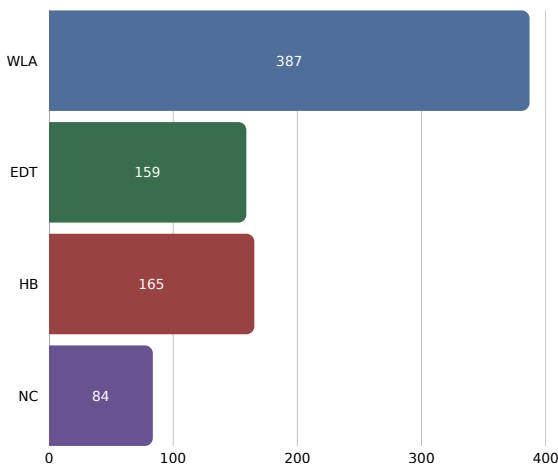

CPSC
California Product
Stewardship Council™

**Athens
Services**

On September 5th, 2024, CPSC and Athens Services collaborated on a textile waste assessment to decipher quality and material type of textiles in Athens' recyclA zones and to evaluate potential diversion opportunities.

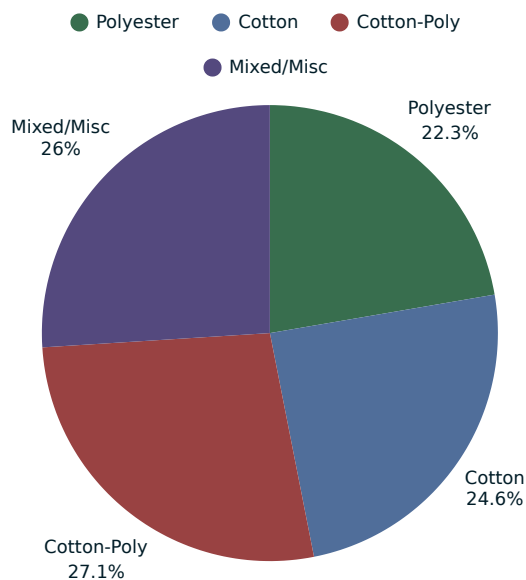

Textile Waste Collected by Zone (lbs)

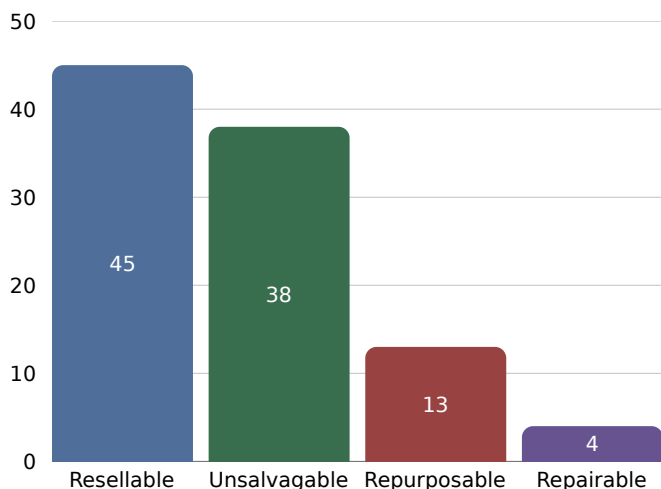

Key Stats

- Total weight audited: 147.7 lbs.
- Textiles in recyclA Waste Stream: 7.7%
- Potential recovery value from cotton waste: \$825,000

Fiber Composition by Weight

Qualitative Assessment by Item Count

Recommendations

- Expand research with high volume generators
- Implement source-separated textile collection to reduce contamination
- Support STRAT Taskforce and align with SB 707 for EPR funding opportunities
